

Request for Quote #5**BPA #: 68HE0323A0006****Call Order #: 5****Date: February 18, 2025****Call Order Title: Animal Agriculture Program Assessment Updates SOW: EPA Region 3 Water Division (WD)**

This is a request for quote (RFQ) for a project plan and cost/price quote for activities outlined in the Statement of Work (SOW) for the above referenced blanket purchase agreement. The project plan and cost/price quote shall be submitted within fourteen days (14) of receipt of this RFQ. The contractor's response shall include, as appropriate the technical approach, personnel assigned, period of performance and deliverables based upon the activities outlined below in accordance with the call order procedures.

The following activities are requested in support of Task 1 as described in the SOW.

The Contractor shall provide a quote for the activities described below. Should the EPA accept the quote, a call order shall be issued, and the Contractor shall work with the Region 3 contacts to schedule and perform the activities. The selected Contractor shall take all direction under this call order from the EPA. EPA expects that activities shall be completed within 24 months of award with a start date of March 2025.

Level of Effort: This is a Firm Fixed Price Call Order.

Reference Materials the Contractor shall utilize include:

- Final West Virginia Animal Agricultural Program Assessment - available at:
<https://www.epa.gov/sites/default/files/2015-09/documents/westvirginiaanimalagricultureprogramassessment.pdf>
- Final New York Animal Agricultural Program Assessment - available at:

- West Virginia's 2020-2021 and 2022-2023 Two Year Programmatic Milestones - available at: <http://www.wvchesapeakebay.us/progress/>
- New York's 2020-2021 and 2022-2023 Two Year Programmatic Milestones – available at: <https://www.dec.ny.gov/lands/33279.html>

- West Virginia's animal agriculture program – available at: <https://agriculture.wv.gov/>
- New York's animal agriculture program – available at: <https://agriculture.ny.gov/animals>

Task 1: Animal Agriculture Program Assessment Updates

The contractor shall provide support to EPA to update the 2015 West Virginia and New York Animal Agriculture programs assessments in the Chesapeake Bay watershed. The assessments address whether the state programs are consistent with Clean Water Act requirements and are implemented effectively to achieve the state's animal agriculture Watershed Implementation Plan (WIP) commitments to reduce nitrogen, phosphorus, and sediment under the Chesapeake Bay Total Maximum Daily Load (TMDL). Programs assessed are regulatory and voluntary programs pertaining to concentrated animal feeding operations (CAFOs) and animal feeding operations (AFOs) and their associated cropland.

The goal of this effort is to: 1) document any changes to the State programs since the previous assessments were completed and evaluate and determine the status of the recommendations, 2) evaluate whether the state programs are consistent with federal regulations and with the states' animal agriculture WIP commitments under the Chesapeake Bay TMDL, 3) determine whether the programs are being effectively implemented, 4) make any program recommendations that would maximize nutrient and sediment reductions to meet Load Allocation and Waste Load allocations of the Chesapeake Bay TMDL and any local water quality efforts that shall have benefits to nutrient reductions. Activities shall include collecting information on the state animal agriculture programs and WIP commitments and determining the extent to which animal agriculture operations are subject to and complying with nutrient management planning requirements, National Pollutant Discharge Elimination System (NPDES) permitting requirements, or other state requirements. The contractor shall help EPA collect information sufficient to support analysis of the strengths and weaknesses of state CAFO programs and other animal agriculture programs in the Chesapeake Bay watershed.

SPECIFIC TASK ACTIVITIES/DELIVERABLE DEADLINES:

- **State Assessments:** Conduct a review and evaluation of the state animal agriculture regulatory and voluntary programs in the Chesapeake Bay watershed portion of the two (2) states identified above, including programs that address CAFOs and AFOs and their associated cropland, to identify whether such programs are consistent with Clean Water Act requirements and are implemented effectively to achieve the state's animal-agriculture WIP commitments.

- **State-Specific Questionnaire:** Contractor shall work with R3 to revise and update state-specific questionnaires relating to animal agriculture programs and WIP commitments.
- **Follow-up Interviews:** Contractor shall work with R3 to prepare for and conduct follow-up interviews with the States, as needed and directed by EPA.
- **File Reviews:** Contractor shall conduct file reviews as directed by R3, where appropriate and as necessary.
- **Web Searches:** Contractor shall conduct web searches on state program implementation and review annual or updated progress available and presented since 2015.
- **Public Access Review:** Contractor shall conduct reviews of public availability of permit and program information to evaluate regional consistency and access to information highlighting best practices.
- **Written Products:** Contractor shall provide draft and final versions of completed state assessments to R3 and R2, as appropriate. Draft reports for WV and NY shall be submitted to EPA within 180 days following the start of each review unless otherwise directed by EPA. It is expected that the reports shall roughly follow the template of the Pennsylvania, Virginia, and Maryland reports and any changes shall not be made to the report structure unless directed by EPA. EPA shall provide comments and edits on the documents to the contractor or may make changes directly depending on the type and extent of comments.

Contractors shall work with R3 project lead to begin drafting state-specific questionnaires for WV and NY. Region 3 shall coordinate with Region 2 for NY activities. Information on the state program assessments can be found at: <https://www.epa.gov/chesapeake-bay-tmdl/epas-assessments-animal-agriculture-programs-chesapeake-bay-watershed>

Communication

Anticipate a minimum of five (5) and a maximum of twenty (20) project planning conference calls or virtual meetings with contractors and EPA to discuss this project. The contractor shall develop notes from those conference calls/meetings to document the discussion, actions items and decisions points. EPA POCs are also available on an as needed basis for clarification and informal discussions.

Deliverables

1. Questionnaire
2. Summary notes from follow-up interviews, file reviews, reviews of public availability of permit and program information, and web searches

3. Draft and final versions of updated assessments

The Project Officer/Contracting Officer's Representative for this Call Order is Lydia Bailey (215-814-5437), [bailey.lydia@epa.gov](mailto.bailey.lydia@epa.gov). The Region 3 contacts for this activity include Leah Martino (215-814-3262) [martino.leah@epa.gov](mailto.martino.leah@epa.gov); Rebecca Crane (215-814-2389) [crane.rebecca@epa.gov](mailto.crane.rebecca@epa.gov); Carissa Moncavage (215-814-5798) [moncavage.carissa@epa.gov](mailto.moncavage.carissa@epa.gov); Jessica Martinsen (215-814-5144) [martinsen.jessica@epa.gov](mailto.martinsen.jessica@epa.gov); and Jennifer Fulton (304-234-0248) [fulton.jennifer@epa.gov](mailto.fulton.jennifer@epa.gov).

RFQ Submittal:

Project Plan

The contractor's response shall include, as appropriate the technical approach, personnel assigned, and deliverables based upon the activities outlined in accordance with the call order procedures. The contractor shall describe their staffing plan for this requirement, including all proposed labor categories. Offerors are cautioned that, if awarded a call order, their staffing plan shall be used to set the minimum standard for acceptable staffing under this order. Any replacement personnel provided after award shall be at least as qualified as the individuals included within the offeror's staffing plan.

The contractor's response shall state compliance or exception to call order requirements, risks, assumptions, and conflict of interest issues. Plans shall not merely restate the statement of work requirements.

Price/Cost Quote

The price/cost quote shall include detailed cost/price amounts for all resources required to accomplish work under the call order (e.g., labor hours, other direct costs, or travel) for each call, and an overall total price. At a minimum, the following data shall be provided:

- (a) Appropriate labor categories and associated number of hours, identification of clerical labor, other direct costs elements, and any GFP, GPE, or GFI required,
- (b) Any other relevant information requested.
- (c) Any assumptions.

Offerors are requested to submit the quote separately from their staffing plan.

Executive Order Compliance Review

The following review verification document must be included with any assistance agreement, contract or interagency (IA) funding action or amendment to a workplan or statement of work. The document demonstrates that the signatory understands that the action and associated workplan or performance work statement complies with Executive Order requirements (detailed here: [Presidential Actions – The White House](#)) at the time of signature.

For actions requiring this document, signature must be by the Office Director (OD) in Headquarters or the Division Director (DD) in the regions. An OD/DD may assign a designee. Contracting Officers/ Specialists, IA Specialists, and Grants Specialists must retain the signed document in the contract, IA or grant file.

Funding actions for \$50,000 and above, review and signature by a DOGE team member is required.

Funding Action Review Confirmation

This confirms that the workplan, budget or performance work statement does not conflict with the Executive Orders and aligns with the Administrator's ["Powering the Great American Comeback"](#) initiative. Funding organizations may batch actions and attach a list of covered actions, which must include the following details, at a minimum.

Contract/ Grant/ IA #: **F-00336525**

Recipient/ Vendor name: **PENNSYLVANIA DEPARTMENT OF ENVIRONMENTAL PROTECTION (PADEP)**

Funding amount \$: **1,000,000 (incremental)**

Work Description:

The agreement assists the Commonwealth of Pennsylvania to develop and implement a Public Water System Supervision (PWSS) program to adequately enforce the National Primary Drinking Water Regulations and the requirements of the Safe Drinking Water Act. This amendment provides incremental federal funds of \$1,000,000. Federal funds of \$4,848,000 are contingent upon availability.

System Link: https://igms.epa.gov/nggs-pa/change_request_details.do?id=114337

Government-wide Acquisition (if yes, check box):

Workplan/PWS Attachment (follow these instructions):

- Must use Adobe Pro
- Select "All Tools"
- Select "Edit a PDF"
- Under "Add Content," select "Show More," choose "Attach a file."

Environmental Results

Select the appropriate competitive status for this agreement.	Non-competitive funding package
---	---------------------------------

Please list the Program Results Code(s) (PRCs) that will be used to fund this project. If more than one PRC is used, list the amount allocated to each in the space provided.

PRC	Amount	Program/Project	Allocation
501B03	\$ 1,000,000.00	03 - CATEGORICAL GRANTS PWSS	100 %
Total	\$ 1,000,000.00		

This project supports the following Goals, Objectives, and Sub-Objectives.

Goal	Objective
5 - Ensure Clean and Safe Water for All Communities	5.1 - Ensure Safe Drinking Water and Reliable Water Infrastructure

Describe how the Program/Project fits within the Agency's Strategic Plan/GPRA architecture.

This project supports Goal 5: Ensure Clean and Safe Water for All Communities and Objective 5.1: Ensure Safe Drinking Water and Reliable Water Infrastructure. Specifically, the recipient will work to improve and maintain the quality of drinking water supplies by maintaining an inventory of drinking water systems, managing information on public water systems, ensuring that public participation occurs regarding drinking water systems, providing technical assistance to public water systems and enforcing drinking water regulations. The PRC Code assigned to fund this project is consistent with the Agency's Strategic Plan/Government Performance and Results Act architecture.

Attachments

No files have been attached.

The PRCs assigned to the funding for this assistance agreement are consistent with these strategic goals/objectives/sub-objectives. The Water Division (3DW00), in R3 - Region 3 has reviewed the work plan for this agreement and determined that it contains well-defined outputs, and to the maximum extent practical, well-defined outcomes.	Yes
--	-----

Is this project progressing satisfactorily? If no, explain the circumstances and the action taken to remedy the situation.	Yes
--	-----

Have you received the progress reports required by this Assistance Agreement?	Yes
---	-----

Have you checked the terms and conditions noted in this Assistance Agreement and ensured that the recipient is in compliance? (e.g. QA Plan)	Yes
--	-----

IRA C-MORE: Key Definitions

"Embodied Carbon": The greenhouse gas emissions associated with the production stage of a product's life (i.e., extraction, transport and manufacturing). Indicated as "Global Warming Potential" (GWP) on an EPD (see next slide).

Life Cycle Assessment (LCA): The compilation and evaluation of the inputs, outputs and the potential environmental impacts of a product system throughout its life cycle. (ISO 14044:2006)

Environmental Product Declaration (EPD): An EPD is a standardized summary report of a product's life cycle assessment, allowing you to evaluate the environmental impact of a product before you purchase it. (based on ISO 14025:2006)

Product Category Rule (PCR): A set of specific rules, requirements and guidelines for developing EPDs for one or more product categories. Typically developed by industry-funded, multistakeholder standards development committees. (based on ISO 14025:2006)

United States
Environmental Protection
Agency

IRA C-MORE: Required by IRA (2022)

Two sections with key interdependencies:

IRA Section 60112

Provides \$250 million through FY31 to EPA to develop an EPD Assistance Program by improving transparency and disclosure of GHG for construction materials and products.

- Catalyze development and verification for EPDs for construction materials and products
- Provide grants and technical assistance
- Support the development of robust and standardized EPDs
- Help facilitate the procurement of lower embodied carbon construction materials and products

IRA Section 60116

Provides \$100 million through FY26 to EPA to create a label program for construction materials and products with lower embodied carbon:

- Identify and label materials and products with lower embodied carbon
- Set standards that can be used by state, local, and private partners
- Help federal, state and local entities, manufacturers, architects, and engineers make more informed purchasing decisions

IRA C-MORE Team & Contractor Roles

Contract kickoff Jan 2024: Due to tight timeframes of IRA, contractors have been utilized to augment EPA staff time and expertise. As grantees ramp up efforts, contractor technical assistance needs for these sections of IRA will reduce.

EPA C-MORE Staff Roles

- **Program/project planning & management**
e.g., recommending to leadership what should qualify as sufficient EPD data quality & "lower" carbon materials
- **Stakeholder engagement & technical assistance**
e.g., interagency coordination; participating in PCR/standards development, presentations at conferences, oversee mfr tool/resource development
- **Develop tools, resources, data analysis**
e.g., develop EPD guidance tools, develop/analyze EPD data
- **Essential grant and contract functions**
e.g., grant NOFO, competition, selection, PO training, grant oversight; contract management and funding actions
- **Budget, program evaluation, IT, & personnel**
e.g., manage budget, oversee program evaluation, oversee development of data platform & stakeholder mgmt system

Contractor Roles

- **Technical assistance**
 - Support EPD technical assistance for manufacturers
 - Support Project Officers with reviewing grant packages
 - Help onboard mfr. label partners & verify products qualify
- **Data and analysis**
 - Develop/analyze lifecycle & other data to support EPDs
- **Content/tool/resource/website development**
 - Support development of tools/resources/materials for mfrs.
 - Assist with website development/maintenance
- **Logistics, stakeholder engagement**
 - Organize stakeholder engagement events/webinars
 - Collect and organize stakeholder feedback
- **IT & program evaluation**
 - Build IT systems to store/analyze/track EPDs
 - Assist with program metrics/eval & IT dashboards/reports

United States
Environmental Protection
Agency

www.epa.gov/P2 | 11

IRA C-MORE: Progress to Date

\$9M to date (Dec. 2022 – Jan. 2025)

Support Manufacturers in Disclosing Emissions via EPDs

- Announced and currently working with 38 organizations to receive ~\$160M in grants for developing EPDs
 - 14 industry trade associations, 9 manufacturers and 15 other orgs (e.g. universities) that are partnering with and supporting construction material manufacturers
- Launched EPA-based technical assistance to support industry until grantee projects are fully mature
- Issued technical resources and established intergovernmental partnerships to improve EPD data quality

Establish Consistent Definitions

- Issued interim determination on what qualifies as lower carbon construction materials to enable GSA and FHWA to implement their relevant IRA directives (\$4.15B on steel, asphalt, concrete, glass)
- Published *Draft Approach for Developing Product-Level Embodied Greenhouse Gas Emissions Thresholds* and requested input from industry/other stakeholders

Offer Manufacturer Recognition via Voluntary Product Labeling

- Incorporated industry/public comment and issued *Label Program Implementation Approach*
- Published *Draft Product Eligibility Criteria* and requested input from industry/other stakeholders

United States
Environmental Protection
Agency

IRA C-MORE: Tasks Remaining

IRA 60116 Label – FY2026 & IRA 60112 EPD Asst – FY2031

Support Manufacturers in Disclosing Emissions through EPDs

- Continue efforts to improve datasets, LCAs, EPDs, etc. through collaboration and technical assistance
- Manage grants and measure results to seek continuous improvement

Establish Consistent Definitions

- Establish a repository of high-quality EPDs to be used to determine what qualifies as ‘lower carbon’ by product type
- Engage stakeholders; issue draft thresholds for specific product types; address public comments; issue final thresholds for each material category

Offer Manufacturer Recognition via Voluntary Product Labeling

- Establish a system to identify and label products
- Build an online registry of labeled products based on their EPDs

Other

- Explore role of EPDs and thresholds methodology in supporting pollution fee-related trade goals

United States
Environmental Protection
Agency

www.epa.gov/P2 | 13

IRA C-MORE ICR

Covers both 60112 and 60116 needs

- Per 60116, the program is directed to base its label program on manufacturer EPDs and procurement efforts of State agencies. Currently, there is insufficient publicly available sources of this information to implement the program.
- To evaluate and improve 60112 program offerings, EPA needs to collect standardized information from grantees and EPD technical asst recipients.
- The second FRN covering these data needs has published and is open for public comment until 2/18. If OMB chooses to, they could approve as soon as 2/18 to allow data collection to start immediately.

Data to be voluntarily reported includes:

- Types and amounts of asphalt, concrete, cement, glass, steel, and salvaged & reused construction materials purchased/used, including reference to Environmental Product Declarations (EPDs) associated with these products where available.
- Grantee reported project results (e.g. # of manufacturers assisted, # of EPDs developed/collected).
- A survey to assess how well program technical assistance is meeting the needs of its customers and to collect results of the technical assistance.

Pollution Prevention (P2)

Bipartisan Infrastructure Law of 2021

BIL Expanded Cost Effective Pollution Prevention Grants by

~\$80M appropriated under the Pollution Prevention Act, to remain available until expended (FY 2022 – 2025)
~\$20M expected in FY 2026

P2 gets results.

Businesses working with grantees have saved \$2.3B combined between 2011 & 2022.*
This equates to a 3,688% ROI on the \$60M in grant funds distributed from 2011-2022.*

TRI facilities reported 460k P2 actions 1991-2021 avoiding ~6.19B lbs of toxic releases.**

Number of FTE right now.

P2 Team & Contractor Roles

EPA P2 Staff Tasks

1. **Essential grant functions** (NOFO, competition, selection, PO training)
2. **Project Officer duties** - grant oversight, data collection, etc.
3. **Personnel and contractor management**, QA/QC, program strategy & evaluation
4. **Operations** including communications, event planning, and IT systems development
5. **Provide leadership & guidance** to the Regions on P2/P2 Grants

Contractor P2 Mission-Support Tasks

1. **Communications support** - P2 website, outreach materials development
2. **Event support** for webinars and Annual P2 Conference (attended by 200+ in-person + hybrid)
3. **Systems development support** for program evaluation, data collection for grants
4. **P2 Hub** - Answering grantee technical questions sent to the P2 Hub

BIL Progress to Date

Fiscal Year	Description	Number of Grants Awarded	Amount Awarded (over two years)	Cap
22-23	P2 BIL -- Based on traditional approach	39	\$12M	\$350K/grant
23-24	P2 BIL - Emphasized P2 Work in Underserved Communities	11	\$8.48M	\$800K/Grant (\$1.2M cap for multi-state or multi-tribal projects)
23-24	P2 BIL- Emphasized Safer and Sustainable Products	12	\$8.01M	\$800K/Grant (\$1.2M cap for multi-state or multi-tribal projects)
24-25 (in-progress)	P2 BIL-- Based on traditional approach	6 out of 29	\$9.3M	\$350K/grant

United States
Environmental Protection
Agency

www.epa.gov/P2 | 21

BIL Tasks Remaining

FY24-25 Grants

- In total, 29 grants were selected for P2 BIL funding.
- 6 grants have been awarded. (Regions 3, 5, 8; IL, MI, MN, MT, UT, VA)
- 23 Grants remain to be awarded.

FY25-26 Grants

- BIL-only competition for approximately \$16M (13.9M + remainder of previous year funding)
- Emphasis on helping businesses

FY26-27 Grants

- Additional Round for approximately \$13.9M (P2 BIL).
- Would supplement traditional funding (P2 Grants).

IRA C-MORE: Timeline to date

Date	Program Milestone
December 2022	Issued Interim Determination of what qualifies as lower carbon construction materials for GSA and FHWA
January 2023	Published Request for Information (RFI) to get input from industry & the public on shaping the programs
September 2023	Issued Notice of Funding Opportunity for IRA 60112 EPD Assistance Grants
January 2024	Grant applications due
January 2024	ERG contract became operational
February 2024	Published Draft Label Program Approach for Public Comment
March 2024	Published Draft Product Category Rule Criteria for Public Comment
July 2024	Announced grantee selections
August 2024	Issued Final Label Program Approach & key data quality improvement resources
November 2024	Launched direct EPD Technical Assistance for manufacturers (to fill gap until grantee-based asst has matured)
December 2024	Issued call for stakeholder input on draft technical documents for low embodied carbon construction materials program and shared 2025 action plans

United States
Environmental Protection
Agency

IRA C-MORE IT Systems Overview

(under development)

Materials Data Platform (MDP)

The Materials Data Platform combines an internal EPD Repository for collecting, storing, reviewing and analyzing construction material environmental data with a public Product Registry to help buyers identify and procure low embodied carbon products.

Key Manufacturer and Industry Benefits:

- **Increasing manufacturers' visibility to buyers** who are interested in construction materials with lower embodied carbon by publicly listing construction products labeled by EPA
- **Minimizing industry burden** by transforming unstructured PDFs to a standardized, machine-readable format
- **Streamlining data exchange across the value chain** by encouraging the adoption of a standard digital schema for EPDs across the industry

Stakeholder Relationship Manager (CRM)

The CRM will manage stakeholder relationships and automate key processes for EPA's C-MORE program, including manufacturer partner onboarding, technical assistance coordination, and tracking program metrics to demonstrate impact and inform strategy.

Key Manufacturer and Industry Benefits:

- **Accelerating technical assistance** through a streamlined digital process to capture and manage inquiries
- **Improving stakeholder engagement experience** by providing clear tracking & communication channels to monitor label product review status, receive updates & engage with EPA support resources
- **Reducing redundant and inconsistent communication** by providing an external-facing portal that will empower staff to manage industry interactions across C-MORE workstreams

Kathryn, for us to move forward on the 22 terminations that Travis approved, we need to finalize the termination memo. I have flagged two areas that could use your review/ help. We were going to go over this with you tomorrow PM but it is holding up the current terminations so I'm sharing over email. Please let me know if you want to connect briefly to discuss.

OFFICE OF MISSION SUPPORT

WASHINGTON, D.C. 20460

[DATE \@ "MMMM d, yyyy"]

MEMORANDUM

SUBJECT: Termination of EPA Assistance Agreement [Grant Number] under 2 CFR 200.340

FROM: EPA Award Official

TO: FirstName LastName, Title
Office (Recipient Authorized Organization Representative (AOR))

The purpose of this communication is to notify you that the U.S. Environmental Protection Agency (EPA) is hereby terminating Assistance Agreement No. [insert Grant Number] awarded to [recipient organization]. In accordance with 2 CFR 200.340(a)(2) (effective August 13, 2020 – September 30, 2024) and the Termination term and condition contained in the EPA General Terms and Conditions effective August 13, 2020 – September 30, 2024, EPA Assistance Agreement [INSERT Grant Number] is terminated in its entirety effective immediately on the grounds that the award no longer effectuates the program goals or agency priorities. The objectives of the award are no longer consistent with EPA funding priorities.

It is a priority of the EPA to eliminate discrimination in all programs throughout the United States. The EPA Administrator has determined that, per the Agency's obligations to the constitutional and statutory law of the United States, this priority includes ensuring that the Agency's grants do not support programs or organizations that promote or take part in diversity, equity, and inclusion ("DEI") initiatives, "environmental justice" initiatives, and conflict with the Agency's policy of prioritizing merit, fairness, and excellence in performing our statutory functions. In addition to complying with the civil rights laws, it is vital that the Agency assess whether all grant payments are free from fraud, abuse, waste, and duplication, as well as to assess whether current grants are in the best interests of the United States.

The grant specified above provides funding for programs that promote or take part in DEI initiatives or environmental justice initiatives or other initiatives that conflict with the Agency's policy of prioritizing merit, fairness, and excellence in performing our statutory functions; that are not free from fraud, abuse, waste, or duplication; or that otherwise fail to serve the best interests of the United States. The grant is therefore inconsistent with, and no longer effectuates, Agency priorities.

The process for closeout is generally outlined in 2 CFR 200.344. EPA is clarifying what reports are required and what reports are waived below. Other requirements are still in effect if applicable to your grant.

EPA is requiring the following closeout reports due within 120 days of closeout (2 CFR 200.344a):

- Final Federal Financial Report, SF-425
- Final Technical Report
- Other programmatic reports identified in your terms and conditions

As part of this termination, EPA is waiving the following closeout reports:

- Property Report, SF-428
- Final Minority Business Enterprise/Woman Business Enterprise Utilization Under Federal Grants and Cooperative Agreements, EPA Form 5700-52A

The recipient may request payment from the Automated Standard Application Payments (ASAP) system for allowable costs incurred up to the date of this memo provided that such costs were contained in the approved workplan. Costs incurred by you after this termination are allowable only if (a) those costs were properly incurred by you before the effective date of this termination, and not in anticipation of it; and (b) those costs would be allowable if your federal award was not suspended or expired normally at the end of the period of performance in which the termination takes effect. See 2 C.F.R. § 200.343. You are encouraged to carefully review and discharge your closeout responsibilities set forth in 2 C.F.R. § 200.344-45 and your award agreement. Those responsibilities include, but are not limited to, your obligation to "promptly refund any unobligated funds" that have been paid out but "are not authorized to be retained." See 2 C.F.R. § 200.344(g).

Also, per 2 CFR 200.472, a recipient may use grant funds to properly closeout their grant including reasonable and necessary costs that might occur after the date of this memo. If the recipient drew down funds from ASAP for costs beyond the termination date or for costs that exceed the amount necessary to properly closeout their grant, the recipient must contact RTPFC at [HYPERLINK "mailto:rtpfc-grants@epa.gov" \h] for instructions on how to return the excess funds.

The EPA Grants Management Office has issued an amendment to the agreement to document the termination.

If you wish to dispute this termination decision, the Disputes Decision Official (DDO), [email address of the DDO], must receive the Dispute no later than 30 calendar days from the date this termination notice is electronically sent to you. Disputes must be sent electronically by email to the DDO, with a copy to the EPA Award Official, [email address of EPA Award Official] within the 30-day period stated above. The Dispute submitted to the DDO must include: (1) A copy of the disputed Agency Decision; (2) A detailed statement of the specific legal and factual grounds for the Dispute, including copies of any supporting documents; (3) The specific remedy or relief you seek under the Dispute; and (4) The name and contact information, including email address, of your designated point of contact for the Dispute. See 2 CFR 1500.15

The requirements on post-closeout adjustments and continuing responsibilities, including audit and record retention requirements, at 2 CFR 200.345 remain in effect.

Subject: RE: List of Grant Terminations - February 20

Usaspending.gov says that only the larger amount has been outlaid: **\$2,006,774.22**
GRANT to INSTITUTE FOR SUSTAINABLE COMMUNITIES | USA Spending

For a total savings of **\$5,993,225.78** for that grant.

I'm not sure what is the source of that second outlay row, but it doesn't seem to match up with any transaction data that I can see in usaspending.gov. So it might just be a typo...

Kathryn

Subject: RE: List of Grant Terminations - February 20

Hi Kathryn,

I just want to make sure I'm getting this right. I've pasted the duplicate below, but outlaid and remaining amounts are different. If they disbursed both the outlaid amounts listed from that \$8M, there would be 4,429,152.81 remaining of that grant. So total taxpayer savings would be \$62,965,311.50.

Let me know if I'm misunderstanding—I just want to make sure we have the right #'s reflected in the release. Thank you!

Financial Account Identifier Number (FAIN)	Award Amount	Total Outlaid Amount (Estimate)	Remaining Amount (Estimate)	Recipient Name

84061101	\$8,000,000	\$1,564,072.97	\$6,435,927.03	INSTITUTE FOR SUSTAINABLE COMMUNITIES
84061101	\$8,000,000	\$2,006,774.22	\$5,993,225.78	INSTITUTE FOR SUSTAINABLE COMMUNITIES

To: Vaseliou, Molly <Vaseliou.Molly@epa.gov>; Coogan, Daniel <Coogan.Daniel@epa.gov>

Subject: RE: List of Grant Terminations - February 20

Just want to flag so you both are aware, there's a duplicate below, FAIN 84061101, so I think the sum total of potential savings here is only \$61M, not \$67M. I know press on this already went out, but I'm going to just report the shorter list to WH unless you are aware of a missing one that's not on this list!

Cc Thomas and Erica on this one because this seems generally related to the \$20B “gold bars”.

(This is one of the X DMs to the @DOGE_EPA handle, so there’s no public link to share on this.)

David Widawsky, director, EPA’s Greenhouse Gas Reduction Fund (GGRF), knows it’s illegal to award grants to unqualified organizations (like Stacey Abrams’ Power Forward Communities). Everyone at EPA who has taken contract management training knows this. The Fund is authorized by statute but staff still must follow contract/grant administration laws. Why is Widawsky and his staff still on the EPA org chart? Check out David at this past November’s launch of “Michigan Climate Investment Accelerator” which aims to siphon 6 Billion from the GGRF to banks/lenders into the spiderweb of grifter organizations.

<https://michigan.gov/egle/newsroom/press-releases/2024/11/01/mi-climate-investment-accelerator...>

“Community lenders in Michigan, including credit unions, CDFIs, and minority depository institutions, will be able to apply to receive funding and technical assistance from five national nonprofit organizations that were awarded a total of \$6 billion under the GGRF earlier this year. Community lenders that successfully draw down GGRF resources will make green loans available for Michigan households and businesses for energy efficiency improvements, renewable energy technologies, electric heat pumps, electric vehicle charging equipment, and more.” Widawsky: “This collaboration between the State of Michigan, Inclusiv, and other GGRF awardees is precisely the kind of partnership we need to build out the clean financing ecosystem, address the climate crisis, and generate new economic opportunities,” said David Widawsky, director, EPA’s Office of the Greenhouse Gas Reduction Fund. “This partnership recognizes the critical role community lenders will play in climate friendly economic development, enabling low-income and disadvantaged communities to access the capital they need to equitably and actively participate in the energy transition. This is just one example of how GGRF awardees are innovating to bring together public, private, and philanthropic sources of capital to fund projects all around the country and deliver on the promises of the Inflation Reduction Act and the Greenhouse Gas Reduction Fund.”

Executive Order Compliance Review

The following review verification document must be included with any assistance agreement, contract or interagency (IA) funding action or amendment to a workplan or statement of work. The document demonstrates that the signatory understands that the action and associated workplan or performance work statement complies with Executive Order requirements (detailed here: [Presidential Actions – The White House](#)) at the time of signature.

For actions requiring this document, signature must be by the Office Director (OD) in Headquarters or the Division Director (DD) in the regions. An OD/DD may assign a designee. Contracting Officers/ Specialists, IA Specialists, and Grants Specialists must retain the signed document in the contract, IA or grant file.

Funding Action Review Confirmation

This confirms that the workplan, budget or performance work statement does not conflict with the Executive Orders and aligns with the Administrator's "[Powering the Great American Comeback](#)" initiative. Funding organizations may batch actions and attach a list of covered actions, which must include the following details, at a minimum.

Contract/ Grant/ IA #: **07E00752-0**

Recipient/ Vendor name: **Forest County Potowatomi Community**

Funding amount \$: **502,500**

Work Description:

Forest County Potowatomi Community will use these funds to (1) protect the quality of the Tribe's water, land, and air resources by building and enhancing the basic infrastructure of an environmental program, (2) ensure healthy ambient air quality for the Reservation and surrounding air-shed, and (3) maintain adequate measures for the prevention and control of surface and groundwater pollution from both point and non-point sources.

Hi Kathryn and Erica,

The purpose of this message is to forward the attached Compliance Review Forms from the Office of Research and Development (ORD) for actions greater than \$50,000. The actions described in the attached forms have been reviewed and are in compliance with recently issued EO's and the Administrator's priorities.

I realize that there are numerous forms (18) on this submission and that the process for reviewing these forms will be changing effective tomorrow, so if you prefer that we use the new process please let me know.

If you have questions or require additional information, please contact me, Mike Brinkmiller (Brinkmiller.michael@epa.gov) or Laconda Hart (Hart.Laconda@epa.gov).

Thank you,
Tim Watkins
Senior Resource Official
Office of Research and Development

Executive Order Compliance Review

The following review verification document must be included with any assistance agreement, contract or interagency (IA) funding action or amendment to a workplan or statement of work. The document demonstrates that the signatory understands that the action and associated workplan or performance work statement complies with Executive Order requirements (detailed here: [Presidential Actions – The White House](#)) at the time of signature.

For actions requiring this document, signature must be by the Office Director (OD) in Headquarters or the Division Director (DD) in the regions. An OD/DD may assign a designee. Contracting Officers/ Specialists, IA Specialists, and Grants Specialists must retain the signed document in the contract, IA or grant file.

Funding Action Review Confirmation

This confirms that the workplan, budget or performance work statement does not conflict with the Executive Orders and aligns with the Administrator's "[Powering the Great American Comeback](#)" initiative. Funding organizations may batch actions and attach a list of covered actions, which must include the following details, at a minimum.

Contract/ Grant/ IA #: **68HERD24A0003 / 68HERD24F0100**

Recipient/ Vendor name: **Booz Allen Hamilton**

Funding amount \$: **200,000**

Work Description:

Assist with the ongoing planning, development, operations, maintenance, and end user support for the Scientific and Technical Information Clearance System (STICS) and its components, including Nuxeo.

STICS, ORD's internal clearance system, automated the previously paper-based review and approval process for clearing ORD scientific and technical products including peer-reviewed journal articles, reports, posters, presentations, assessments, etc., The application promotes transparency by enabling researchers to see where their products are in the clearance process and access their submissions at any time as well as run detailed reports. Clearance for publication and release to the public and internal EPA partners is one of the final steps in the research process.
